Elena Kagan-Weitz, AuD/CCC-A

**Speech-Language Pathology Clinic
Staff:**

Kathleen Palatucci, MA/CCC-SLP
Rosemary DeStephan, MS/CCC-
SLP Diane Polledri, MA/CCC-SLP

Thank you for your interest in our services at the Center for Audiology and Speech-Language Pathology at Montclair State University (CASLP). The CASLP is an essential part of the graduate education program in Audiology at Montclair State. The Clinic offers a wide range of hearing, balance and auditory processing evaluations to individuals of all ages. In addition to the evaluations the Clinic also offers comprehensive hearing aid services and consultations to children and adults. These services are provided by graduate students who are enrolled in the Doctor of Audiology program at the University. The students provide services under the direct supervision of the Clinical Staff. All members of the staff are certified by the American Speech-Language-Hearing Association and hold the New Jersey State Audiology license and the New Jersey Hearing Aid Dispenser license.

Because the clinic is designed to teach students to become Audiologists, the time necessary to complete a valid and reliable comprehensive evaluation may take longer than would be expected at other facilities. In addition, the clinic schedule is developed each semester in accordance with the students' class schedule so appointment availability may change. While we will make every effort to work with you it may not be possible to accommodate every need.

If you are interested in scheduling an evaluation or obtain hearing aid services, please fill out the intake forms included in this document. Once completed, the forms can be scanned and returned via email at csdclinic@montclair.edu, mailed to the address at the left, or delivered to the clinic. **Please do not fax these confidential forms.** If you have received previous evaluations, please include these reports with your intake forms.

We look forward to serving you.

Sincerely,

Faith Mogila, ScD/CCC-A
Director of the Hearing and Balance Clinic
