Report Overview:

This report highlights sponsored program activities for the period 07/1/18 to 6/30/19 (FY 19), providing comparative data as well as historical trends. It also provides detailed information on the types of sponsored program activities occurring at Montclair State University (MSU) and data on student, post-doctoral, and trainee involvement in those activities. Also included are written narratives highlighting some of the many projects affecting local communities, as well as Office of Sponsored Programs (OSP) outreach and professional development activities in FY 2019.

The Year in Brief:

Major Achievements: Building upon MSU's status and recognition as a state designated public research university, in FY 19, Montclair State University gained a "Research 2" designation from the Carnegie Classification of Institutions of Higher Education. The R2 classification of MSU as a Doctoral Granting/High Research Activity recognizes the growth of our doctoral research programs, and research and development expenditures as measured by the National Science Foundation's HERD Survey. This hallmark achievement speaks directly to the talent and dedication our research and doctoral faculty and staff, and places us in an even better position to compete regionally and nationally in a very competitive funding environment.

Also, in FY 19, Montclair State University joined Rutgers, Rowan, NJIT and Stevens Institute of Technology on the "Research with New Jersey" Initiative. This initiative, led by Vice Provost for Research and Dean of the Graduate School, Scott Herness, created New Jersey's very first research database. ResearchwithNJ *"helps businesses and entrepreneurs identify and collaborate with our top universities and experts. This free database will help you discover thousands of experts in science, technology, engineering and mathematics (STEM) as well as their professional backgrounds, publications, and achievements."*

Awards and Proposals: In FY 19, MSU faculty and staff were awarded \$12.8M externally sponsored funding, the 2nd largest award year in MSU history, only surpassed by FY18's total of \$17.85M. 167 proposals were submitted in FY 19—a 5% increase from the previous year. Underlying these numbers is the fact that MSU's competitiveness in attracting federal funding for its research and other programmatic activities has grown by nearly 20% annually! The National Science Foundation remains MSU's leading federal sponsor, although an increasing number of grants are being submitted to and awarded by the National Institutes of Health. *And, excitingly, a record breaking \$15.9M has already been received through the first 7 months in FY 2020!*

On large institutional grants (e.g., Department of Education Title III and Title V) universities are increasingly working with experienced outside consulting firms to bolster competitiveness. In FY 19, Dana Natale in OSP collaborated with an outside consulting group and a very strong team in University College, led by Drs. David Hood and Danielle Insalaco-Egan to submit its very first Title III Department of Education Proposal, "Strengthening Institutions," which landed a perfect score and was subsequently awarded in FY 20! This \$2.2M project will fund comprehensive student success and retention initiative.

On behalf of OSP, we congratulate MSU faculty and staff for their continued excellence and celebrate their invaluable contributions as we move forward along our path as a dynamic and vibrant research university!

Sincerely,

Frederic "Ted" Russo, Director, Office of Sponsored Programs
Dr. Scott Herness, Vice Provost for Research; Dean, The Graduate School

Federal awards to MSU (largely competitively peer reviewed) increased by 1.5% in FY 19. Over the past 5 years, federally funded awards have increased by an average of 19.91% over the past 5 fiscal years.

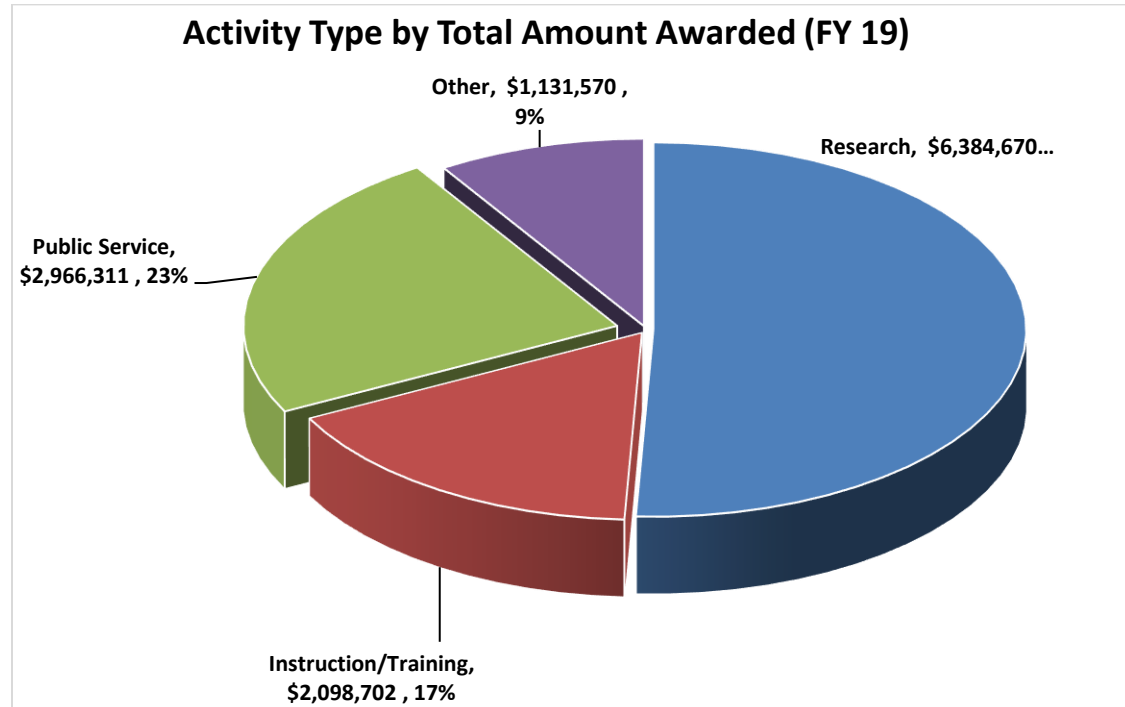

Award growth over the past ten years has averaged 8.14%. As noted, the drop in FY 19 is largely attributed to a major single award in FY 18 to MSU (CEHS). FY 19 marks MSU's 2nd highest award total, and federal research support with the National Science Foundation remains strong.

VII. Campus and Community Impact: To follow, are just some of the *many* sponsored activities and programs that are directly impacting our campus, communities, state, and region. In FY 19, over \$6.3M in funding was awarded to MSU in support of research, education/awareness, outreach, training and public service projects impacting the tri-state region.

- \$1,206,213 grant from the **US Department of Education** in Year 5 support of the [Newark Montclair Urban Teacher Residency Program](#). This program, in partnership with the Newark Public Schools (NPS), seeks to improve student achievement by applying rigorous research-based teacher preparation to the concrete needs of the NPS. The Newark Montclair Urban Teacher Residency is designed to recruit talented individuals, including those from underrepresented groups and other careers, into teaching math, science, and early childhood special education. The NMUTR also increases teacher quality and retention, which ultimately improves student achievement.
PI/PD: Jennifer Robinson, Center of Pedagogy (CEHS)
- A \$979,205 contract from the **NJ Department of Children and Families**, in continued support of [Project LAUNCH](#). This multi-contract award funded services to provide evidenced-based curricula in Essex County, and to support a range of early childhood prevention programs throughout New Jersey, including Home-Visitation, support for County Councils, support for the Early Childhood Comprehensive Systems' Help Me Grow initiative, Community-based Child Abuse Prevention programs, and Project LAUNCH. **PI/PD's: Gerard Costa and Kaitlin Mulcahy, Center for Autism and Early Childhood Mental Health (CEHS)**
- \$850,000 from the **NJ Department of Human Services** in support of MSU's [FY19 Socio-Emotional Formation Initiative \(SEFI\)](#). The Socio-Emotional Formation Initiative (SEFI) supports the statewide integration of professional development opportunities aimed at promoting the social and emotional well-being and inclusion of all infants, toddlers and young children with and without developmental, emotional and behavioral difficulties. SEFI, a grant-supported program of the Center for Autism and Early Childhood Mental Health at Montclair State University, approaches this work through the full continuum of promotion, prevention and intervention efforts.
PI/PD: Gerard Costa • Center for Autism and Early Childhood Mental Health (CEHS)
- A two-year \$375,000 grant from the **NJ Department of Education**, in support of the Center of Pedagogy's "*Recruiting Teachers of Color*" program will focus to recruit, prepare, support and place a diverse pool of teacher candidates that better reflect the diversity of New Jersey's student population. MSU will commit to recruit candidates of color to teach in urban schools.
PI/PD's: Jennifer Robinson, Carolina Gonzalez & Geraldine Koch, Center of Pedagogy (CEHS)
- A \$200,000 grant from **Math for America** to fund the "*The New Jersey STEM Innovation Fellowship*." The New Jersey STEM Innovation Fellowship is a new teacher-leadership program that will be open to experienced elementary teachers working in New Jersey public schools. Teachers accepted to the fellowship will receive a \$5,000 stipend and join a supportive learning community where they will learn about a research-based, innovative math teaching practice alongside talented teachers from other New Jersey districts and schools. Montclair State University, in collaboration with Math for America, will be the lead institution in partnership with *Princeton University* and *Rowan University*.
PI/PD: Jacalyn Giacalone Willis, Professional Resources in Science and Mathematics (CSAM)

- A \$199,965 grant from the **NJ Board of Public Utilities** to fund a project entitled “*The Clean Energy and Sustainability Analytics Center (CESAC): To Advance Research on the Sustainable Clean-Energy Economy.*” The [Clean Energy and Sustainability Analytics Center \(CESAC\)](#) is working to advance research on the sustainable clean-energy economy by providing research, analysis, education, and outreach on clean-energy policies, technology, and practices. CESAC’s work aims to provide real-world insights to regulators, businesses, and the general public. While CESAC fosters faculty and student research in the area of clean energy and sustainability analytics, it also facilitates collaborative discussion between energy researchers and policy makers.

PI/PD: Pankaj Lal, Clean Energy and Sustainability Analytics Center (CSAM)

- Supplemental grant funding of \$35,245 from the **NJ Department of Environmental Protection** for a project entitled “*Assessment of Clinging Jellyfish *Gonionemus Vertens* Populations in the Shrewsbury River Estuary and the Manasquan River Estuary.*” MSU investigators will provide data to identify and quantify the distribution and abundance of *G. vertens*—invasive clinging jellyfish—from the Shrewsbury Estuary and the Manasquan River Estuary.

PI’s/PD’s: Paul Bologna & John Gaynor (CSAM)

- \$51,473 grant in continued support of the “*Garden State LSAMP Phase II*” project. In collaboration with Rutgers University, and sponsored by the **National Science Foundation**, this project will continue and extend the programmatic support for underrepresented students heading into the sciences other than medicine.

PI/PD’s: Dean of CSAM, Lora Billings & Yvonne Gindt, Biology (CSAM)

- \$275,155 grant from the **US Department of Education** for year two of Montclair State’s “[Upward Bound Project \(UB\)](#).” UB delivers educational opportunities for currently enrolled high school students, who come from low level income families and/or who are potential first-generation college attendees. UB provides fundamental support for participants to succeed in their current level of education as well as preparing them in their pursuit of higher education.

PI/PD’s: Donna Lorenzo, Health Careers (CSAM)

- A \$62,942 grant from the **NJ Department of Environmental Protection** for the project “*Assessment of the Impacts of OCNGS on Gelatinous Zooplankton and Planktonic Community Structure,*” which hopes to assess the distribution of gelatinous zooplankton and potential impacts of Oyster Creek Nuclear Generating Station (OCNGS) on planktonic community structure and provide a Metagenomic Composition assessment of planktonic communities and impacts of OCNGS. They will be supported by undergraduate and graduate students of Montclair State University.

PI’s/PD’s: Paul Bologna, John Gaynor and Robert Meredith (CSAM)

- A \$71,224 grant for from the **NJ Department of Human Services** for continued support of the “*New Jersey Hearing Aid Project,*” which is an effort to provide low income individuals access to needed hearing aid devices and related audiological services that otherwise are not available due to cost.

PI/PD’s: Janet Koehnke and Maris Appelbaum (CHSS)

- \$246,238 from the **NJ Department of Children and Families** for the “*Post BA Certificate in Adolescent Advocacy 2018-2019*” program. This program, the result of a collaboration between Montclair State University and the Department of Children and Families (DCF), has been designed to provide Child Protection and Permanency workers (CP&P) (Formerly The Division of Youth and Family Services DYFS)

and DCF workers who wish to further their expertise in working with adolescents in the public welfare system with a multidisciplinary understanding of the role of the child advocate as seen through the disciplines of law, psychology, and social work among others. Students gain the necessary knowledge and skills to work effectively with the adolescent population.

PI/PD: Jason Dickinson (CHSS)

- A \$365,518 grant from the **NJ Commission on National and Community Service** to fund the “*Montclair State University EECO Project*.” Since 2014, the Center for Community Engagement at Montclair State University, in partnership with the Orange Public Schools have been awarded with the first-ever University-Assisted Full-Service Community Schools grant in New Jersey to support the Orange Community School Initiative. With a renewed grant and two new faculty members included in this program, Dr. Murdock and his team will continue to engage twenty AmeriCorps members who will support the development and implementation of a full-service university-assisted UACS community school project in Orange, NJ public schools.

PIs/PD's: Bryan Murdock, Krystal Woolston (Center for Community Engagement), Randall Fitzgerald, William Thomas (New Jersey School of Conservation)

- A **US Department of Health and Human Services/SAMHSA** grant in the amount of \$125,000 in continued support of the “*Paterson Coalition Against Substance Abuse (P-CASA)*.” P-CASA seeks to develop the infrastructure of an anti-drug coalition targeting at-risk racial and ethnic minority adolescents in Paterson’s 1st Ward. As a collaborative effort between Montclair State University and a diverse group of community stakeholders, P-CASA will introduce evidence-based environmental prevention strategies to meet the goals of the Drug Free Communities Grant Program, which are to increase community collaboration and reduce substance use among youth aged 12–17.

PI/PD's: Robert Reid and Pauline Garcia-Reid (CEHS)

- \$122,200 subaward entitled *Action, Plan, Research and Evaluation* from the **NJ Department of Law and Public Safety (DLPS)**. DLPS received a federal grant from the US Department of Justice to develop an Integrated Drug Awareness Dashboard (IDAD), synthesizing previously separate datasets from multiple state agencies (e.g., NJ State Police, NJ Prescription Drug Monitoring Program). The aim of this centralized data-sharing “dashboard” is to create a clearer picture of the opioid epidemic across the state, inform targeted interventions, and develop analytic opioid “hot spot” data. Dr. Kyse and the team at CREEHS serve as program evaluator and action research partner to the project, collecting data from IDAD stakeholders to inform continuous improvement of the dashboard.

PI/PD: Eden Kyse, Center for Research and Evaluation on Education and Human Services (CEHS)

A \$5,000 grant from the NJ Council for the Humanities, for a project entitled “*Building a community partnership with local schools to promote Humanities and Science Literacy through programming*.” This project builds and expands a relationship between Montclair State University and the Montclair Township School District to develop public programming that provides a Humanities perspective on Science & Technology.
